

Teddy Centre Ear Clinic Visits Pulham Primary Academy

Mistletoe Class at Pulham Primary had a fantastic and inspirational visit from The Teddy Centre recently.

They came to explain and show us how we can support our friends and family members by being deaf aware. 'I AM JUST RIGHT' is their inspirational quote.

One of the visitors, Paris, is deaf herself. She had beautiful purple-coloured hearing aids fitted, as well as a cochlear implant. She explained that she had been deaf all her life. Because she had her aids to support her, this meant that it did not impact her life in anyway. If anything, she felt that she had a superpower and she could help other children understand.

All the children had an appointment with their VIP (bear from home) at the Audiologist clinic. They tested their bear's hearing. Each VIP bear had their own hearing device fitted and decorated with gems, just like Paris.

Children also learnt the skills to become deaf aware. Using sign language is not the only tool, but lip reading and making eye contact is just as important.

Finally, we had the chance to sign part of our class Christmas song we had been learning. We were also given some lovely gifts to help remind and support us in the future.

Adverts in YouTube Videos

Concerns have been raised by school staff about adverts in YouTube videos that are used and streamed in lessons. These adverts can cause a disruption to the flow of the lesson.

Extensive research has been carried out by our broadband providers, Rydal (who look after Smoothwall permissions) and OfficeXpress to see if there is a way of blocking these adverts. Unfortunately, it is not possible for these to be universally blocked.

The only way around this is to purchase a license for each user and this would be cost prohibitive at £12.99 per month per user. **Note this is per user and not per school.**

It is set up this way by YouTube as the adverts are what pays for this free resource.

Louise Veeren (Head of Safeguarding) is in agreement that though these adverts can be annoying and inconvenient, they are not dangerous or a potential safeguarding threat so there is no requirement to block school staff from using YouTube.

Other streaming services are available and each option has different features around security, ease of use and cost :-

1. **Vimeo** - Offers ad-free video hosting with privacy controls and the ability to embed videos securely.
2. **Wistia** - Designed for professional video hosting, with no ads and strong customisation options.

However, YouTube is the recognised powerhouse of streaming and most likely to fulfil the requirements for schools.

The best suggestion to minimise the inconvenience that these adverts cause would be to consider downloading videos in advance (where licensing allows).

Rollout of Juniper MIS across St Benet's

As the two Juniper Sonar training sessions have now taken place, we are moving our focus to the rollout of the MIS software across the Trust's schools.

Rosemary Ison (DoNESC Operations Manager) and Juniper are preparing a phased rollout implementation plan for the MIS software. This will involve in-person and online training sessions for admin staff members which will be scheduled a number of weeks ahead of your school's actual rollout date.

The MIS rollout programme started in October with Taconeston & Morley Primaries and our remaining schools will follow on a phased basis after the January census.

Pupil Asset will continue to run alongside Juniper for a period of time as the new system beds in.

If you have difficulty logging into SONAR and the 'forgotten password' link is not working, please contact the Juniper support desk via: sonartrackerhelp@junipereducation.org or use the link here: <https://help.junipereducation.org/>
